WRC Bulletin 361 February 1991

This Bulletin contains two reports that compare the French RCC-M Pressure Vessel Code and the U.S ASME Section III Code on Design of Nuclear Components and Piping Design Rules.

(1) Improvements on Fatigue Analysis Methods for the Design of Nuclear Components Subjected to the French RCC-M Code

By J. M. Grandemange, J. Heliot, J. Vagner, A. Morel and C. Faigy

(2) Framatome View on the Comparison between Class 1 and Class 2 RCC-M Piping Design Rules

By C. Heng and J. M. Grandemange

Publication of this bulletin was sponsored by the Pressure Vessel Research Council of the Welding Research Council. The price of WRC Bulletin 361 is \$30.00 per copy, plus \$5.00 for U.S. and \$10.00 for overseas, postage and handling. Orders should be sent with payment to the Welding Research Council, Room 1301, 345 E. 47th St., New York, NY 10017.

WRC Bulletin 364 June 1991

This bulletin contains two reports:

(1) New Design Curves for Torispherical Heads

By A. Kalnins and D. P. Updike

(2) Elastic-Plastic Analysis of Shells of Revolution under Axisymmetric Loading

By D. P. Updike and A. Kalnins

Publication of these reports was sponsored by the Committee on Shells and Ligaments of the Pressure Vessel Research Council. The price of WRC Bulletin 364 is \$40.00 per copy, plus \$5.00 for U.S. and \$10.00 for overseas, postage and handling. Orders should be sent with payment to the Welding Research Council, Room 1301, 345 E. 47th St., New York, NY 10017.
